

How do I know which Field of Study to choose?

Below is a list of possible majors that might fit under each field of study category. If you cannot find your major, select the field of study that you feel would ***most likely*** include your major. If you feel that your major does not fit into any of the provided fields of study, you may select "Other." However, selecting "Other" may exclude you from being considered for scholarships designated for certain fields. If you need assistance, contact the Community Foundation at 574-267-1901 or scholarships@kcfoundation.org.

Field of Study	Possible Majors
Agriculture	Agribusiness, Agricultural Economics, Agricultural Education, Agronomy, Biochemistry, Bioenergy, Biological Engineering, Entomology, Environmental Science, Food Science, Forestry, Horticulture, Landscape Architecture, Natural Resources, Plant Science
